Oxford is a Prepaid Health Plan

Invoices are mailed approximately two weeks in advance and are due by the first of the month.

Example of the Monthly Billing Cycle for August:

■ August 1:
  • Premium is due for the month of August
  • August’s 30-day grace period begins

■ August 10 (approximately):
  • Invoices are generated for the following month (September)

■ Between August 15 and 18:
  • Automatic reminder letters are sent to groups that have not paid for August and have a balance due

■ September 1:
  • Groups that did not pay for their August invoice are terminated

Each month’s payment should include:

• A Remittance Advice (payment stub) for each invoice;
• The payment amount for that billing group noted in the appropriate space and
• A check for the total amount due for each invoice payable to Oxford Health Plans.

Or

Employer groups that have multiple billing groups, and receive an invoice for each billing group, may submit a single check for multiple invoices by indicating the amount they would like applied to each invoice in the “Payment Breakdown” box.

Please be advised that Oxford may terminate coverage for all groups that do not remit full payment by the 30th or 31st day of the month on which payment is due. Please see your Group Enrollment Agreement (GEA) for your group’s specific grace period.

Oxford will not pay claims incurred after the termination date, and we will not reinstate groups that have been terminated due to a delinquent payment history.

How To Verify Invoice Accuracy

When reviewing your Invoice Details each month, please check to see that all subscribed employees are accurately enrolled by reviewing the following:

- Is the employee assigned to the correct CSP (Contract Specific Package)?
- Does the employee have the correct Contract Type?
- Is the employee appearing on the appropriate billing group’s statement?
- Is the correct Current Premium being applied to each employee? (Learn how late enrollments and disenrollments are calculated in the below section: How Premiums are Prorated)

To find where these items are located on your Invoice Details, see the preceding page for a complete overview.

Important Note: Oxford will not enroll individuals after 31 days from their eligibility date. Therefore, please carefully review the Invoice Details page of your billing statement. Immediately notify Oxford’s Enrollment Department of any omission or changes to avoid denial of coverage at a later date.

See more information: Who to Contact About Billing Discrepancies on the following page.

How Premiums are Prorated

Invoices are mailed approximately two weeks in advance of the insured month and due by the first of the month. Adjustments due to late enrollments or disenrollments may not always appear on your statement, due to late receipts.

Oxford recommends that you submit your enrollment materials on or before the first day of the month. Premium adjustments for enrollment materials received later than this first day of the month may not appear until two invoices later.

Premium adjustments are based on the following schedule:

Member Effective/Termination Dates and Premiums Due:

- If a Member is effective between the 1st and 15th of the month, the group is charged for the entire month.
- If a Member is effective between the 16th and the last day of the month, the group will not be charged for that month.
- If a Member is terminated between the 1st and 15th of the month, the group would not be charged for that month.
- If a Member is terminated between the 16th and the last day of the month, the group is charged for the entire month.
