Oxford Health Plans recognizes that education is an important step toward detecting and treating cancer early. Our comprehensive Oncology Program is designed to empower Members through education and assist with coordination of cancer care through care management for certain diagnoses. Oxford encourages Members to have important screening tests early to detect cancer, and provides Members who have cancer with access to coordinated cancer care.

What services are available through the Oncology Program?

**Cancer Screening and Education** – Members are reminded annually of key screenings for cancer detection. eCancerAnswers.com is a web site available to Oxford Members that provides timely information on cancer risk and cancer care. It contains general facts on prevention and screening, information for individuals with cancer, and helpful ideas for caregivers. Members can complete a confidential risk assessment and learn more about how to lower their risk of many cancers. For Members with cancer, the site also provides information and practical solutions to help support treatment and recovery.

**Cancer Care Coordination** – The care management component of the program focuses primarily on Members who may potentially have complications associated with their cancer treatment. Our care management team consists of nurse care managers and social workers who:

- Work with Members to support their clinical and psychosocial needs by administering telephonic assessments and education, coordinating home care, and providing educational resources.
- Work closely with you to help coordinate care for your patient.
- Support and reinforce your treatment plan, emphasizing symptom management.

Who is eligible for care management?

Members undergoing active chemotherapy and/or radiation treatment who are diagnosed with the types of cancer listed below may be eligible for care management services.

**Stage III or Stage IV:**
- Breast cancer
- Colorectal cancer
- Esophageal cancer
- Gastric cancer
- Hepatic cancer
- Lung cancer, small or non-small cell
- Ovarian cancer
- Pancreatic cancer
- Prostate cancer

**Any stage:**
- Brain cancer
- Head and neck cancer
- Hodgkin’s or non-Hodgkin’s lymphoma

**Patient Referrals**

Referring your Oxford patients who meet our clinical criteria to the program is easy.

- Fax the Patient Referral Form (on the reverse side of this page) to 203-452-4746
- Fill in your treatment plan or attach a copy of the patient’s treatment flow sheet.
- You will receive a confirmation fax from Oxford within two business days regarding the status of your referral.

For more information on Oxford’s Oncology Program, log in to www.oxfordhealth.com and visit the oxfordhealth Center, or call 1-800-835-8021.
Photocopy this page to use as your referral form. Please provide the following information for each patient and fax to 203-452-4746. If you have any questions, please call the Oncology Program physician line at 1-800-835-8021.
