INSTRUCTIONS FOR USE

The services described in Oxford policies are subject to the terms, conditions and limitations of the member’s contract or certificate. Unless otherwise stated, Oxford policies do not apply to Medicare Advantage members. Oxford reserves the right, in its sole discretion, to modify policies as necessary without prior written notice unless otherwise required by Oxford’s administrative procedures or applicable state law. The term Oxford includes Oxford Health Plans, LLC and all of its subsidiaries as appropriate for these policies.

Certain policies may not be applicable to Self-Funded members and certain insured products. Refer to the member specific benefit plan document or Certificate of Coverage to determine whether coverage is provided or if there are any exclusions or benefit limitations applicable to any of these policies. If there is a difference between any policy and the member specific benefit plan document or Certificate of Coverage, the member specific benefit plan document or Certificate of Coverage will govern.

UnitedHealthcare may also use tools developed by third parties, such as the MCG™ Care Guidelines, to assist us in administering health benefits. The MCG™ Care Guidelines are intended to be used in connection with the independent professional medical judgment of a qualified health care provider and do not constitute the practice of medicine or medical advice.

APPLICABLE LINES OF BUSINESS/PRODUCTS

This policy applies to Oxford Commercial plan membership.

APPLICATION

This policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500), or its electronic equivalent or its successor form. This policy applies to all network and non-network providers and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals.

OVERVIEW

This policy addresses reimbursement for standby services and hospital mandated on-call services.

Current Procedural Terminology

Per Current Procedural Terminology (CPT) definition, code 99360 is used to report physician or other qualified health care professional standby services that are requested by another individual that involves prolonged attendance without direct (face-to-face) patient contact. Care or services may not be provided to other patients during this period. This code is not used to report time spent proctoring another individual. It is also not used if the period of standby ends with the performance of a procedure subject to a surgical package by the individual who was on standby.
REIMBURSEMENT GUIDELINES

Centers for Medicare and Medicaid Services
The Centers for Medicare and Medicaid Services (CMS) does not reimburse for physician standby services. These services are considered by CMS to be included in the payment to a facility as part of providing quality care and are not separately reimbursable.

Standby Services
In accordance with CMS, Oxford does not reimburse physician or other qualified health care professional standby services submitted with CPT code 99360. If a specific service is directly rendered to the patient by the standby physician or other qualified health care professional (i.e., tissue examination of frozen section biopsy), the service or procedure would be reported under the appropriate CPT code (i.e., 88331).

Mandated Hospital On-Call Service
Oxford does not reimburse for hospital mandated on-call services billed under CPT codes 99026 and 99027 because they do not involve direct patient contact.

APPLICABLE CODES
The following list(s) of procedure and/or diagnosis codes is provided for reference purposes only and may not be all inclusive. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by the member specific benefit plan document and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies may apply.

QUESTIONS AND ANSWERS
If a pediatrician or other physician is requested by the delivering physician to attend at delivery and provide services to stabilize a newborn, are those services considered standby services?

No. If a physician is requested by the delivering physician to attend at delivery and to provide stabilization of a newborn, the physician may bill for those direct face-to-face services provided to the newborn using CPT code 99464.
